Acadience® Reading K-6
Earlier Insights. Better Outcomes.

Strengthen instruction and decision-making with valid, reliable, and actionable data.

Acadience® Reading K–6, a curriculum-neutral set of evidence-based assessment measures, gives individual teachers, school administrators, and district leaders the data they need to accelerate reading growth.

- **Spot risks early** so educators can act sooner and reduce the need for intensive intervention later.
- **Obtain skill-level data**, allowing educators to provide students with targeted support.
- **Monitor progress through the Outcomes-Driven Model (ODM) within an MTSS framework** to evaluate instructional impact and make timely adjustments.
- **Support instruction, intervention, and resource decision-making** with actionable data at the student, classroom, school, and district levels.
- **Leverage data effectively and confidently with Acadience Learning Online (ALO)**, an app that generates easy-to-read reports in real time and turns insights into next steps.

Gain a Comprehensive View of Reading Development

Acadience® Reading K-6 includes ten measures that assess key reading skills and risk indicators. Measures vary by grade and most take about one minute, so educators get a complete picture of reading development without giving up instructional time.

MEASURE	SKILL(S) ASSESSED	GRADES
First Sound Fluency (FSF)	Phonemic Awareness	K
Letter Naming Fluency (LNF)	Letter Naming	K–1
Phoneme Segmentation Fluency (PSF)	Phonemic Awareness	K–1
Nonsense Word Fluency (NWF)	Alphabetic Principle, Basic Phonics	K–2
Decodable Reading Fluency	Basic Phonics, Fluency and Accuracy	K–1
Oral Reading Fluency (ORF)	Advanced Phonics, Word Attack, Fluency and Accuracy Comprehension with Retell	1–6
Maze	Reading Comprehension	3–6
Vocabulary	Vocabulary	K–3
Spelling	Spelling	K–3*
Rapid Automatized Naming (RAN)	Rapid Naming	K–6*

*As needed

More Than Just a Risk Score

A score alone doesn't tell a teacher what to teach next. Like a quick checkup, the measures of Acadience Reading K–6 give educators a snapshot of reading health and the information to act on it.

- **Direct observation, not a score:** Most measures are given one-on-one, so educators can hear reading behaviors that computer adaptive tests can't capture.
- **Skill-level detail:** Results show which skills need support, informing grouping, instruction, and intervention.
- **Tracks growth over time:** See whether support is working with benchmark screening three times a year and progress monitoring in between if needed.
- **Start small groups sooner:** ALO suggests student groups based on skill needs, so teachers spend less time sorting data.

Turn Data Into Action With ALO

Turn Acadience® Reading K-6 results into action with Acadience Learning Online (ALO), an award-winning data management and reporting platform. ALO shows teachers where students need support and identifies trends across classrooms, schools, and years for administrators.

- **See results the moment testing is done.** With digital or manual entry, scoring is automatic, so educators know where a student stands right away.
- **Set and track individual growth goals.** With Pathways of Progress™, ALO sets an individualized growth goal based on each student's starting point.
- **Obtain a clear picture across schools, tiers, and years.** Interactive dashboards and printable reports support everything from parent conferences to staffing and resource decisions.

2 million students screened and progress monitored with Acadience Reading K-6

“We believe these measures provide a more comprehensive view…they will help us quickly identify skill deficits, make more informed MTSS and intervention decisions, and provide targeted instruction that addresses students’ specific needs.”

— Melissa Schmackers, reading interventionist, OH

Grounded in Research, Proven in Practice

Based on the work of Drs. Roland H. Good III and Ruth Kaminski, the original authors of DIBELS®, Acadience® Reading K–6 is backed by decades of research and ongoing validation. Now a Wilson Language Training® solution, it has been used by districts to screen and monitor two million students.

Empower Educators With Acadience Professional Learning

Give every educator the skills to assess and act on results, with on-demand, live online, or in-person workshops

- **Essential Workshop:** Administer and score with confidence from day one.
- **Data Interpretation Workshop:** Turn results into action.
- **Mentoring & Certification:** Train your own trainers to develop in-district expertise.
